ophthalmological  
control

Preservative-free,  
perfume-free, alcohol-free\*

## 1.

### WHAT IS BLEPHAGEL & ITS BENEFITS

**BLEPHAGEL** is a **hypoallergenic\*\* gel** for gentle daily cleansing of sensitive, irritated and allergy-prone skin.

**BLEPHAGEL** is specially formulated to:

- Refresh, soften and soothe eyelids.
- Remove dirt, tears, dried secretions, pollen and make-up.
- Respect natural eyelid hydration.
- Leave no residue and is not greasy or sticky.

**BLEPHAGEL** has been tested under ophthalmological control and has demonstrated excellent tolerance.

**BLEPHAGEL** is part of Théa's **BLEPHA** range, a range 100% dedicated to eyelid care for the well-being of your eyelids and maintaining good eye health.

#### Ingredients:

AQUA, POLOXAMER 188, PEG-90, BHT, CARBOMER, SODIUM HYDROXIDE.

## 2.

### WHAT ALLOWS BLEPHAGEL TO BE PRESERVATIVE FREE

Théa, specialised in ophthalmology products, was the pioneer and remains one of the world leaders in preservative-free eye care products.

**BLEPHAGEL** benefits from:

- A specific formulation containing only the essential ingredients, carefully selected for their effectiveness, to guarantee a better tolerance and comfort of use (no preservatives, pseudo-preservatives or irritants).
- The tube is an airless pump that provides accurate and regular gel release for simple and easy application.
- A high standard manufacturing process that guarantees the quality of the gel.

## 3.

### WHAT YOUR EYE CARE SPECIALISTS RECOMMEND FOR EYELID DISORDERS

Eye care specialists recommend using **daily eyelid hygiene** to help when you have the following conditions:

- Blepharitis (anterior and posterior) (inflammation of the eyelids),
- Dry eye associated with meibomian gland dysfunction (glands located inside the eyelids which do not work properly),
- Allergic conjunctivitis (inflammation in response to allergens),
- Eye and eyelid damage due to:
  - Eczema (Atopic dermatitis) (disease of the skin on the face which causes itchiness, dry skin, rashes, scaly patches),
  - Acne rosacea (disease of the skin on the face which causes redness),
  - Seborrheic dermatitis (disease of the skin on the face which causes redness and scaly skin).

**Daily eyelid hygiene** can also be **recommended before surgery** only if advised by your doctor/ophthalmologist, when careful and thorough cleansing of eyelids and eyelash roots is needed.

## 4.

### WHO CAN USE BLEPHAGEL

**BLEPHAGEL** is suitable for sensitive, irritated and allergy-prone skin.

**BLEPHAGEL** can be used for sensitive eyes and by contact lens wearers.

## 5.

### HOW TO USE BLEPHAGEL

**When first using**, gently press the front of the tube for 3 seconds, to push the gel towards the pump.

Next, point the tube downwards and prime the pump by pressing the head 3 times.

**Laboratoires Théa**

12, rue Louis Blériot, 63100 Clermont-Ferrand, France

Apply **BLEPHAGEL** twice daily, morning and evening, or as many times as your eyelids need to be cleansed.

**Step 1:** Press the head (pump) to release a small amount of **BLEPHAGEL** on to a pad (do not press the tube). Remove any gel left on the tube nozzle with the pad.

**Step 2:** With the help of a mirror, close one eye and gently apply the gel to the closed eyelid and eyelash roots.

**Step 3:** Using circular movements gently rub the eyelids and eyelash roots and continue until all dirt, make-up and other debris have been removed.

**Step 4:** Remove any excess **BLEPHAGEL** from the eyelid with a clean pad.

**Step 5:** Repeat these 4 steps for the other eye.

**BLEPHAGEL** is non-greasy, non-sticky and does not need to be rinsed after use.

**BLEPHAGEL** contains approximately 60 applications.

Do not apply directly into the eyes.

**6.**

#### HOW TO STORE BLEPHAGEL

Keep out of the sight and reach of children.

Throw away the tube 4 months after first opening.

Do not store above 25°C.

Do not cut the tube (risk of contamination from bacteria).
